

COURTS & JUSTICE
SOLUTIONS

A Proven End-to-End Solution

Why Tyler?

The Most Complete Solution for Courts and Justice Agencies

Odyssey® connects courts, prosecutors, public defenders, and the filing community through products designed to save time, eliminate redundancies, and minimize errors, so you can be more responsive to the public and share data with agencies within the justice sector. Odyssey also connects law enforcement, corrections, and supervision partners to create an end-to-end criminal justice solution from dispatch through disposition.

An Open Platform With Many Ways to Connect

Odyssey leverages hundreds of APIs to connect and securely share data across multiple systems. It adheres to open data standards, is Springboard certified for third-party integration, and enables clients to analyze data gathered from disparate systems via Socrata®. An open platform enables courts to develop agile, flexible, and comprehensive electronic processes that allow them and other agencies to share data across applications, agencies, and jurisdictions.

Protect and Extend Your Software Investment

When purchasing Tyler software, you get the benefit of perpetual upgrades as they happen, which we deliver to you without additional license fees. It's our commitment to ensure you are up to date on the most current technology and functionality.

Our Track Record of Success

Courts and justice agencies in seven countries and 30 U.S. states, serving more than 150 million citizens, use Odyssey and our family of court products. With a proven history of rapid implementation and a client base with a track record of successful innovation to expand access to justice, we empower legal professionals with helpful tools and facilitate collaboration across justice partners.

A Comprehensive Suite of Products

COURTS & JUSTICE SOLUTIONS

- Odyssey Case Manager™
- Odyssey Judge Edition™
- Odyssey Clerk Edition™
- Odyssey Financial Manager™
- Odyssey Process Builder
- Jury

Manage All Aspects of Court Administration

Odyssey Case Manager™ tracks cases from e-filing through disposition, and manage highly sensitive court case data. Case Manager can work as a single case-type system or as the hub of a unified, highly integrated case management system to provide secure access to party and case data across the entire justice system.

Create an Electronic Courtroom With Software Made for Your Role

With Odyssey Judge Edition™ and a touch screen, you can quickly and securely access up-to-date case data, control critical case information, and work with multiple defendants or cases simultaneously right from the bench. Odyssey Clerk Edition™ streamlines the operations of high-volume courts.

Control Your Financial System

Odyssey Financial Manager™ centralizes disparate financial transactions, giving you complete control and visibility to all court financial transactions to track accounts, process finances, and manage transactions securely and efficiently.

Increase Public Access to Case Information

Odyssey's public access portal allows you to provide the public and your justice partners real-time web access to essential case, calendar, and party information from any PC, tablet, or mobile phone.

Customize Workflows to Your Court

With Odyssey Process Builder, you can create processes in Odyssey that fit the way you and your office work. You can set up triggers to automatically start processes, create tasks, and more whenever an action is performed on a case file to work smarter and more efficiently.

Save Time. Save Money. Empower Jurors.

Tyler's jury solution provides a streamlined system with intuitive features including automated summons delivery via SummonsDirect, text message reminders for jurors, and Interactive Voice Response for juror status checks. It also allows jurors to respond electronically to summons, receive jury duty payments electronically, and more.

- Odyssey File & Serve™
- Odyssey Guide & File™
- Tyler Redaction Services™
- re:Search®
- Socrata®

Expand Access to Justice

Deliver Fast, Fair Online Dispute Resolution

Allow citizens to resolve their own disputes online, anywhere, anytime with Modria®, which leads parties step-by-step through an online process to resolve disputes as quickly as possible. Get out-of-the-box resolution flows and automatically resolve the most common — and historically time-consuming — disputes.

Electronically File Court Documents

Odyssey File & Serve™ enables the electronic filing of documents with the court via a secure, web-based portal, including online filing for self-represented litigants (SRLs). Odyssey Guide & File™ allows courts to develop their own interview process and electronic forms to guide SRLs through the filing process while adhering to the court's filing rules and reducing time and resources spent supporting self-represented litigants. Tyler Redaction Services™ for Odyssey® offer court users the opportunity to request automated redaction on specific documents during the upload process, and then allow them to review the items identified for redaction to ensure accuracy.

Improve Access to Case Data and Documents

re:Search® provides a more efficient way for judges/judicial officers and attorneys/legal representatives to access information from any place, on any device. It allows you to offer a web-based portal that provides immediate and secure access to a consolidated database of case information, increase transparency, and create a revenue stream for your court.

Measure Performance and Make Better, More Informed Decisions

Socrata® Court Insights help you use data strategically and effectively in the design, management, and delivery of programs and missions. Deployed within and across software applications, Court Insights link data together to help you create better outcomes and provide analytics for decision makers with different levels of complexity. Whether you're a judicial officer, court administrator, departmental officer, or chief executive officer, these insights can help answer questions such as, "How are these programs working?", "Where are the bottlenecks in my court's efficiency?" or "What will the impact on society be if I change this statute?"

“

We are always looking for growth and improvement opportunities. Embracing technological advancements and software updates while collaborating with Tyler ensures that our office is positioned to meet our goals.

”

— Judge Randall Slagle, Travis County, TX Justice of the Peace Precinct 2

**COURTS & JUSTICE
SOLUTIONS**

- Attorney Manager™
- Tyler Corrections™
- Tyler Supervision™
- New World™ public safety
- Brazos™

Share Information With Justice Partners

Tyler solutions bring dispatch operators, police, fire departments, emergency services, court staff, judicial officers, prosecutors, corrections staff, and probation officers together to make it easier to collaborate throughout the justice process.

Track Critical Data and Manage Caseloads

Attorney Manager™ lets you review, gather, and track information for criminal and non-criminal cases by using case statuses, witnesses, victims, evidence and more. Attorney Manager also organizes and maintains case data for hearing and trial preparation for prosecutors and public defenders.

Comprehensive Jail/Prison Management Software

Tyler Corrections™ automates business processes to drive efficient intake, release, and everything in between. Integration provides immediate access to inmate information, and automatically flows information securely from one agency to the next.

Manage All Aspects of Adult and Juvenile Supervision

Tyler Supervision™ is a web-based SaaS solution that helps coordinate, communicate, record, and track each step of the client supervision process. Intuitive features streamline client management while security measures, such as CJIS and Amazon GovCloud compliance, ensure you meet the safety requirements for working in the cloud.

Connect With Public Safety Agencies to Create Safer Communities

Tyler's New World™ public safety software suite provides command staff, dispatchers, and other public safety personnel with powerful tools to respond quickly and save lives. Our solutions are configurable and scalable, so each agency can have the right tools to meet the needs of their community.

Advanced, Flexible Mobile Citation Solution

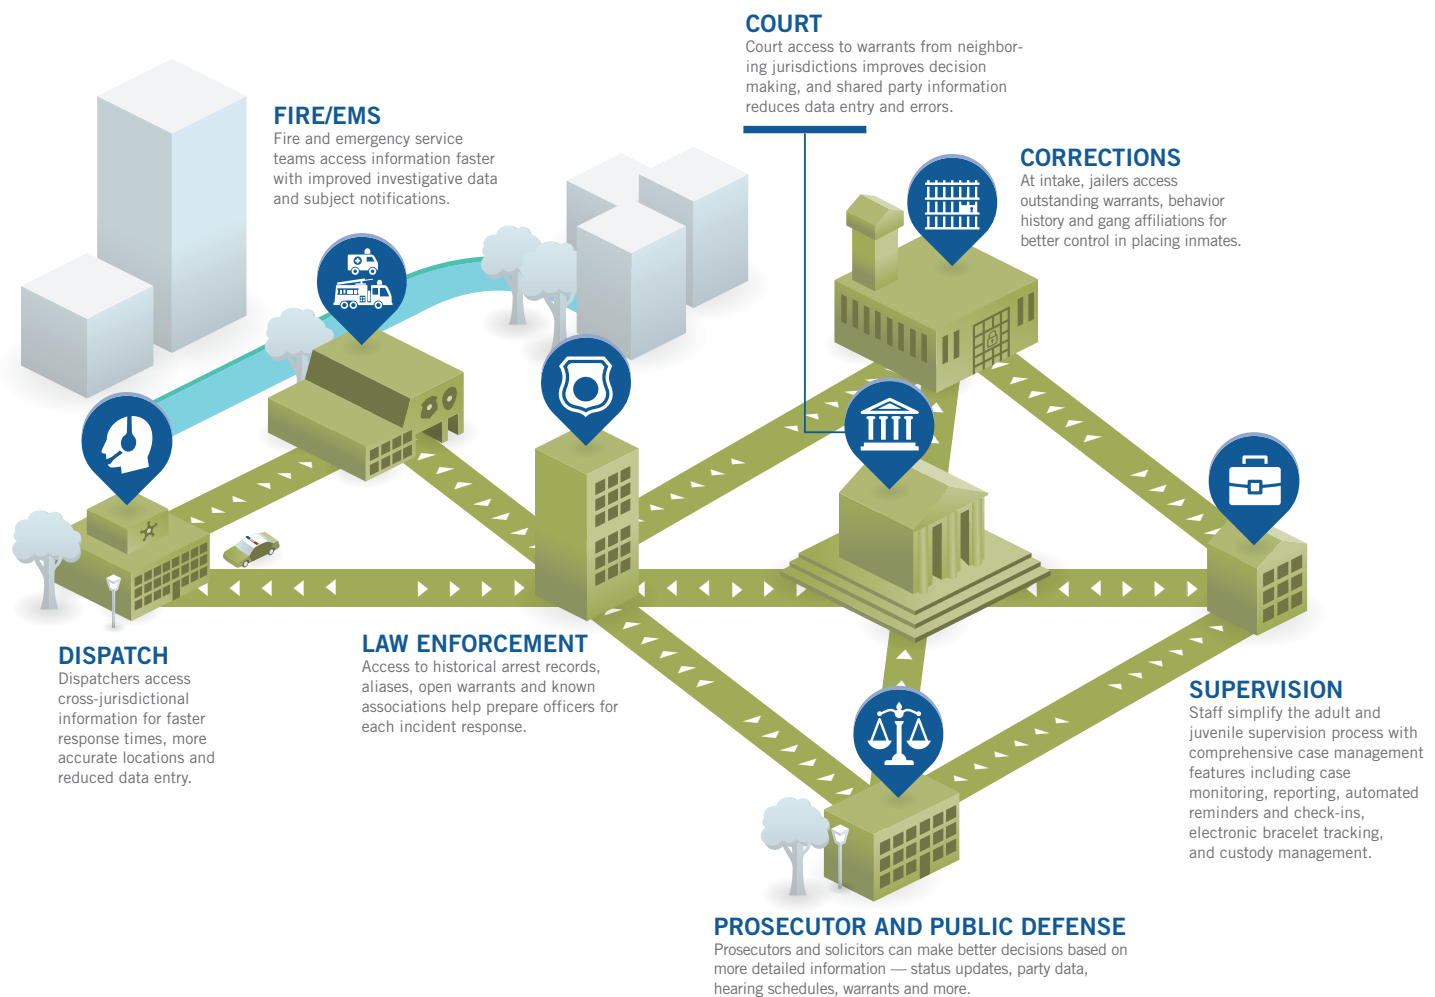

Brazos™ electronic citation captures, processes, and transmits data into public safety and court systems. Instead of hand writing, officers can easily input citation details on a mobile device using this web-based, form-based application.

Tyler Alliance Integrates Criminal Justice and Public Safety Systems

With Tyler Alliance™, our multi-agency, distributed platform, sharing of criminal justice information across agencies enables staff to be more efficient and effective, no matter their role in the process.

From police officers and emergency services to court clerks, trial judges, prosecutors, and corrections staff, Tyler products seamlessly connect to enable improved information sharing, which enhances decision making, increases safety, automates processes, saves time, and reduces errors.

Experience that Counts. Technology that Delivers.

Tyler Technologies (NYSE: TYL) is the largest and most established provider of integrated software and technology services focused on the public sector. Tyler's end-to-end solutions empower local, state, and federal government entities to operate more efficiently and connect more transparently with their constituents and with each other. By connecting data and processes across disparate systems, Tyler's solutions are transforming how clients gain actionable insights that solve problems in their communities. Tyler has more than 21,000 successful installations across 10,000 sites, with clients in all 50 states, Canada, the Caribbean, Australia, and other international locations. A financially strong company, Tyler has achieved double-digit revenue growth every quarter since 2012. It was also named to Forbes' "Best Midsize Employers" list in 2018 and recognized twice on its "Most Innovative Growth Companies" list. More information about Tyler Technologies, headquartered in Plano, Texas, can be found at tylertech.com.
